FINANCIAL AND COMMERCIAL.

The Money Market Active and Unsettled.

THE RATES 7 PER CENT TO 1-16.

A Drocping Speculation at the Stock Exchange.

Decline of 4 Per Cent in Western Union Telegraph Shares.

LAKE SHORE EXCEPTIONALLY STRONG.

A Fall in Consols in the London Market.

GOLD FIRM AND FEVERISH.

Advance in the 67's in the English Market-Decline in the Rates of Foreign Exchange-Advance in Missouri Bonds-Railroad Earnings During the Month of January.

WALL STREET, MONDAY, Feb. 10—6 P. M. On 'Change to-day cotton was quiet and easier for both "spot" and "future." Flour was quiet, but firm. Wheat was neglected and nominally easier, while corn was in fair demand and firmer. COMPARISON OF THE IMPORTS.

The following shows the imports, exclusive of specie, at the port of New York for the week ending February 8, and since the beginning of the year:— 1871. 1872. 1873. 1873. 1873. Gen. muse. 4,120,012 3,276,909 3,346,812 Total for week.... \$7,622,798 \$7,500,475 \$5,292,842 Prev. reported.... 25,588,906 \$1,934,517 30,398,267 Since Jan. 1.....\$33,211,704 \$39,494,992 \$42,328,149 THE FOREIGN MARKET.

The London quotations show a sudden decline of % per cent in consols, attributed, in the absence of other explanation, to the rumored intended ab dication of the King of Spain. On the other hand Prench rentes in Paris have been steady at 56.05. United States bonds have been rather firmer, and the 67's improved 1/2 per cent, as if from the cessa-tion of the competition of the new loan. Eric shares were weak and declined one per cent to 52, but losed a trifle better.
MONEY ACTIVE.

The money market was again active, but un settled in its working. The early business on call was at 7, gold, to 7 per cent, currency, with the addition of a commission of 1-64. During the interval between two and half-past two o'clock the rate hardened to 1-32 a 1-16 per cent, a good deal of business being done at 1-16. Still later the market relaxed to 7 per cent currency, but before the close of dealings on the sidewalk borrowers had to pay 7 per cent, coin. Mercantile paper was neglected and almost nominal at 8 a 10 per cent discount for

FOREIGN EXCHANGE LOWER. The gold speculation, by keeping the premium at

its current altitude, has enabled a steady export of produce to Europe with the result of creating a larger supply of bills. As a further consequence the foreign bankers have lowered their rates for foreign exchange, the market to-day having been weak. Prime sixty day sterling sold at 109%. The following are the reduced rates:—Sterling, sixty days commercial, 108% a 169; do., good to prime bankers', 100% a 109%; do., short sight, 110% a 110%; Paris, sixty days, 528% a 523%; do., short sight, 519% a 518%; Prussian thaiers, 71% a 72%; Antwerp, 525 a 520; Switzerland, 525 a 526; Hamburg, 05% a 96%; Amsterdam, 40% a 40%; Frankfort, 40% a 41%; Bremen, 95% a 96%. GOLD PIRM—113% A 114%.

The gold market was firm upon the special support given it by the clique whose particular ministration was required to off-set the effect of the weaker tone of the foreign exchanges. Early in the day the price advanced to 114%, but subsequently receded to 113%, the market at times being quite feverish. Eventually the decline in consols in London came to the help of the "bulls" and enabled them to close the dealings with a pretty strong undertone at 114. The Sub-Treasury paid out \$245,000 on account of interest, and \$400 on account of redeemed five-twenties. The course of the market is shown

do. bve-twenties, registered, May and November, 115% a 115%; do. da., 1862, coupon, do., 115% a 115%; do. do., 1865, do. do., 1864, do. do., 115% a 115%; do. do., 1865, do. do., 115% a 115%; do. do., 1867, registered, January and July, 114% a 114%; do. do., 1805, coupon do., 114% a 114%; do. do., 1867, do. do., 116% a 116%; do. do., 1868, do. do., 116% a 116%; do. ten-forties, registered, 111% a 112; do. do., coupon, 114% a 116%; do. 114% a 114%; do. fives of 1881, registered, 112% a

113%; do. do. do., coupon, 112% a 113%. TRII RAILBOAD BONDS.

A steady business was done in the railroad bonds at firm quotations, the Central Pacifics advancing to 104%. The Union Pacifics were lower, with a de cline in the incomes to 75 following a report that the company would default on the March coupons. bids at the call as amended by prices in subsequent

| Desires | Desire |

SOUTHERN SECURITIES DULL. The Southern State bonds were neglected, the only business of any extent being confined to the Tennessees and Missouris. The former were weak

and % lower. The Missouris were strong, wit sales at 95. The general list was steady, and left o as follows:—Tennessee, ex coupon, 81 a 81%; do new, 81 a 81%; Virginia, ex coupon, 47 a 50; do. regis tered stock, old, 87 a 42; do. sixes, consolidate bonds, 55% a 56; do. do. sixes, deferred scrip, 14 14%; Georgia sixes, 75 a 80; do. sevens, 89 a 9 North Carolina, ex coupon, 34 a 34%; do. to Nort Carolina Raliroad, 60 a 62; do. funding, 1866, 25 28; do. do., 1868, 23 a 26; do. new, 18 a 20; do special tax, 13 a 14; Missouri sixes, 95 a 95½; do. Hannibal and St. Joseph, 93 a 93½; Louisiana sixes, 50 a 55; do. new, 45 a 50; do levee sixes, 50 a 60; do. do. eights, 60 a 70; do. do eights, 1875, 60 a 75; Alabama dves, 57 a 62; do eights, 83 a 87; South Carolina sixes, 40 a 50; do new, January and July, 22 a 22%; do. de., Apri and October, 25 a 26; Arkansas sixes, funded, 40

RAILROAD EARNINGS FOR JANUARY. The return of railroad earnings for January generally unfavorable in consequence of the ot struction of trame by the several severe snow storms of that month. Leading exceptions ar afforded, however, in the case of the Central Pa cific and Lake Shore roads. The following comparson is from the Financial Chronicle:—

* Three weeks in January, 1873, against fumonth in 1872.
† Three weeks only in both years.
‡ Approximate by telegraph.

STOCKS HEAVY AND LOWER. The stock market was heavy in its general fer tures and drooped to a lower average of price but without a display of what could be called a tive weakness. The bullish element seemed thave lost courage on account of the incomple success of the Syndicate, and suffered the marke to go by default, especially as the condition of the money market was not calculated to inspire the speculation for a rise. The one single exception the lower tendency of prices was afforded in the case of Lake Shore, which advanced about one pe cent and retained pretty nearly all of its improv ment to the close, its strength being referable

the first place to

A NEW POOL

speculation, and in the second, to the favorable showing of earnings during the late month of January, when railroad business throughout th West suffered so many extraordinary drawback from the remarkable snow storms of that very win try month. The several bituminous coal minis stocks were also firm on the growing demand for the products of their corporations followin the scarcity of and advance in coal i England. The wider knowledge of the actio of the Executive Committee of the Western Unio Telegraph Company in ratifying the sale of the 15,000 shares disposed of last week by order of the directors caused further weakness in the stoc the price of which went off, on extreme quot tions, from 91 to 87%. The prospect of a final passage of the bill to withhold the money carned b

UNION PACIFIC Railroad for services rendered the government a long as the interest on the second mertgage remains unpaid caused a decline in Union Pacifi shares to 33%, although the denial of a contempo raneous rumor that this action on the part of th government would cause the company to defaul upon the March coupons of the income bonds wa followed by a reaction to 35 a 34%. Pacific Ma continued weak and went below 74, although it was explained that the steamer Henry Chaunce had left Aspinwall on a new time schedule, an was not due until the 12th or 13th inst. Eric, which was inclined to buoyancy in this market by reaso of a rumor that the expected dividend would i declared at a meeting of the directors to-morrow was dragged down by the decline in the Londo market, and fluctuated between 66% and 65%

closing at 66%. HIGHEST AND LOWEST PRICES.

The following table shows the highest and lowes prices of the principal stocks during the day:-

COMMERCIAL REPORT

Cotton Quiet and Lower: Receints at the Ports, 23,280 Bales-Flour Firm-Wheat Easy-Corn Firmer-Oats Steady-Provisions Quiet, but Firm-Groceries Generally Quiet-Petroleum Steady-Naval Stores Nominal-Whiskey Firm.

Monday, Feb. 10—6 P. M.
The trade movement was emphatically slow today, but the general merchandise markets were, if anything, a trifle more steady as a rule. Cotton remained dull and nominal. At the Produce Exchange business was very light, particularly in breadstuffs. Flonr was steady, with but a moderate shipping demand, while wheat was neglected, in the absence of freight room, and prices were in the absence of Reight Louis and Spring was almost wholly nominal. Common Spring was a trifle easier to buy, but prime was held firm. Corn was more active and decidedly better. Oats were steady. The demand for whiskey was moderate, but the market remained firm. The pork market ruled firm, but the demand was moderate and business light; freights were firm and room was scarce. Groceries were generally quiet, but the markets not materially changed. Petroleum was very quiet, but about steady. Naval stores were entirely nominal.

COFFEE.-The market to-day has been less active, but remained very firm for all descriptions. We heard of sales of 3,600 bags Rio, ex Sjogasten, and beard of sales of \$,600 bags Riq ex Sjogasten, and \$,000 bags do. ex Echo, at Baltimore, both on private terms. We quote:—Rio—Ordinary cargoes, 17c. a 175/c.; fair cargoes, 155/c., a 195/c.; good cargoes 193/c. a 195/c.; fair cargoes, 155/c., a 195/c.; good cargoes 193/c. a 195/c.; prime cargoes, 195/c. a 20-c.; extreme range for lots, 17c. a 25/c. Java—Government bags, 20c. a 21c.; do., grass muts, 20c. a 22c.; Singapore, 17c. a 18c.; Ceylon, 18c. a 19c.; Maraccaibo, 18c. a 19c.; Lagunyra, 18c. a 19/c.; Jamaica, 18c. a 20c.; Mexican, 18c. a 19c.; Manila, 17c. a 18c.; Angostura, 175/c. a 18c.; Savanilla, 175/c a 18c.; Curacoa, 175/c. a 18c.; Savanilla, 175/c a 19c.; Curacoa, 175/c. a 185/c. gold, per lb., 60 and 29 days' credit.

Cottox.—The market for cotton was dull and heavy. The annexed quotations show a decline of 5/c. per lb. on ordinary and sood ordinary, and 5/c. per lb. on low middling. The quotations for the better grades were unchanged. The market on future delivery was fairly active but at lower prices, the closing sales being 1-16c. a 3-16c. lower. We sum up sales thus:—

Export. 120 100 200

property; no bonus. Address PRINCIPAL, box 2,835 Post
office. Also \$70,000 to loan on Jersey City or Newark.
Answers must contain full description.

BANKING OFFICE OF FISK & HATCH, NO. 5 NASu street, New York, Feb. 5, 1873.

The CHESAPEAKE AND OHIO, the CENTRAL PA-CIFIC and WESTERN PACIFIC BONDS, all of which have been negotiated by us, we believe to be among the best and most desirable investment securities in the market, which in time must become very scarce; especially as the government will probably pay off, in gold, \$300,000,000 five-twenties, and a large amount of money thus released from investment must find its way into this class of securities.

The CHESAPEAKE AND OHIO SIX PER CENT GOLD BONDS, the total amount of which is only \$15,000,000, are secured upon a property worth \$35,000,000 to \$40,000,000, and are fully equal in intrinsic value to the Central Pacific bonds. They are issued in denominations of \$100, \$500 and \$1,000, coupon or registered, and at their present market price (8634 and accrued interest) are very desirable.

The CENTRAL PACIFIC SIX PER CENT GOLD BONDS are too well known to require description or commendation. Their total amount is \$25,885,000; they have for a long time ranged in market price near or above par. Their price to-day is 103% to 103%.

The WESTERN PACIFIC SIX PER CENT GOLD BONDS amount to \$2,735,000. This road is now consolidated with the Central Pacific, and the payment of its bonds, principal and interest, is assumed by the latter. Coupon bonds, \$1,000 each. Their market price to-day is 92 to 9214. As they have recently been introduced on the Stock Exchange, we expect to see them rapidly rise to the price of Central Pacifics, being substantially the same in character and value.

We buy and sell as usual government bonds, receive deposits, on which we allow interest; make collections, and conduct a general banking business in all its branches.

THE MOUNT PLORENCE ESTATE.

Meeting of the Shareholders at Cooper

Union Yesterday Afternoon.
Persons holding shares in this prize lottery estate have of late been very nervous regarding the safety of their investments, and to ascertain how matters stood they called a meeting at room 24, matters stood they called a meeting at room 24, Cooper Union, yesterday afternoon, to hear the report of the committee appointed at a previous meeting to investigate the matter. The committee reported progress, and stated that they could not make their report until the snow had melted, as they were unable to see the property, and therefore prayed for a longer lease of power to fully investigate the matter, which was granted. The meeting adjourned until the first Monday in April, when it will meet again at the same place and hear the final report of the committee and devise means for the drawing.

THE COURTS. THE JUMEL ESTATE CASE. The Long Suit Coming to a Close at Last-Summing Up for the Defendant-Argument Te Be Continued To-Bay. The Rosenzweig Case in the General Sessions.

THE JUMEL ESTATE CASE.

The Suit of Bowen vs. Chase-The Re-

butting Testimony for the Plaintiff Closed-Summing Up of Mr. J. C. Carter for the Defendant. The hearing of the case of George W. Bowen vs. Nelson Chase was resumed yesterday in the United States Circuit Court, before Judge Shipman and

the special jury.
Mr. Hoar, Mr. Chatfield, Mr. Chauncey Shaffer and Mr. Sawyer appeared as counsel for the plain-tiff, and Mr. Charles O'Conor and Mr. J. C. Carter

for the defendant.

DEPOSITION OF GIDEON J. TUCKER.

Mr. Carter continued to read to the jury the cross-examination of Gideon J. Tucker in his deposition, as taken in the progress of the present trial. Tucker states that he had an interview with Joseph Perry at a house in Brooklyn, and was brought to him by a detective named Wells. Tucker wanted, he said, to have Wells keep an eye on Perry, so that he might have the latter arrested and prosecuted for perjury. The reason he did not have Perry arrested immediately after the commis-sion of the perjury was that the perjury was com-

TESTIMONY OF COMMISSIONER SHIELDS.
Mr. John A. Shields, United States Commissioner, Mr. John A. Shields, United States Commissioner, deposed that on April 25, 1872, Mr. Tucker swore an affidavit before him; on that occasion Mr. Shields, Mr. Tucker and Mr. Shaffer went before Judge Davis, the United States District Attorney, and after some conversation it was agreed among them that, as the offence (the perjury by Perry) had been committed in Providence, the warrant for his arrest should have been issued there; Judge Davis said that that was the proper course, and he (Mr. Shields) had a doubt that he had a right to issue the warrant; since then no person had spoken to him on the matter until a day or two ago, when Mr. Shaffer asked him to bring the affidivit into Court.

William H. Crystal, clerk in the Tax Omce of this city, deposed that the tax on the Jumel property for 1872 had not been paid.

DEEDS PUT IN EVIDENCE.

Counsel for plaintiff put in evidence a deed, dated July 29, 1865, from Eliza B. Tranckell and others to Nelson Chase.

After some discussion it was agreed on both sides that two counsel should address the jury for each paity, Mr. J. C. Carter to begin for the defendant, and that gentleman to be followed by one of the counsel for plaintiff, who will be succeeded by Mr. O'Conor for defendant, leaving the last word to Mr. Hoar for plaintiff.

Judge Shipman said that, in view of the multiplicity of matters involved in the evidence, he would not curtail counsel sto the time they should consume in summing up. deposed that on April 25, 1872, Mr. Tucker swore an

would not curtail counsel as to the time they should consume in summing up.

SUMMING UP BY MR. J. C. CARTER FOR THE DEFENDANT.

After the recess, at two o'clock, Mr. J. C. Carter proceeded to sum up the case on behalf of the decendant. He said he would be as brief as the nature of the case permitted, and he had no doubt the patience which the jury had exhibited all along would be extended to him in his argument. He would have to go into a variety of details. He would have to show the circumstances under which this case arose. Madame Jumel was a woman fent of ostentation. She married Aaron Burr, and afterwards obtained a divorce from him. This gave her great notoriety. She was introduced into society in France as the widow of Aaron Burr, vice President of the United States. At the time she made the will of 1863 there was not a whisper that she ever had an illegitimate son, and it was then well known that the children of Mr. Chase were her legitimate heirs. Notwithstanding that fact Madame made a will cutting off the Chases from the inheritance. A suit was instituted to break the will, and Messrs. Martin and Smith mado inquiries as to whether there had been persons nearer to Madame in relationship than the Chases; but they could find none. Mr. Devine, of that tirm, as early as 1866, went to Providence and called upon persons of the name of Bowen to come forward and state if they were related to Betsy Bowen, afterwards Madame Jumel. There were Bowens in the front of him, Bowens at the left of him, Bowens at the at Saratora. Mr. Jumel bought this property in 1810 or 1812. This was Mr. Jumel's property, which he subsequently settled upon Madamo Jumel, and it was afterwards to vest in Mary Jumel, the adopted child of the Jumels, and her heirs. The nominal defendant in this case way Mr. Noson Chase, but he and his two children heit this property, and they were interested in this property, and they were interested in this hitgation. Counsel then gave a history of the Bowen family. He alluded to the evidence of Mrs. Tranckell, who, he said, produced the commission of Jonathan Clarke, and thus connected Mrs. Maria-Jones as a member of this family. At this point of the learned gentleman's argument he dealt at length in comments upon old records produced in the case. He contended that those records made out a clear case of relationship between Madama-Jumel and Mrs. Maria Jones. In the year 1804, Betsy Bowen, who was a woman of great personal attractions, married Stephen Jumel and wont to reside at the Manison. Mary Jumel was living with the Jumels as their adopted daughter, and she married Mr. Chase in 1832. According to all the evidence they had in the case, it was known that the lady, who was called Mary Jumel, was the daughter of Maria Jones had previcusly married some worthless fellow, who had deserted her, and that Mary Jumel was a daughter of that marriage. Mary Jumel had been educated abroad by the Jumels, who had no children of their own, and throughout the whole trial it was clear that the intention of the Jumels was to make Mary Jumel (Mrs. Chase) their heir. Eventually the property was conveyed to one Michael Workmaster in 1827, to be held in trust for certain uses and purposes to be executed by Madame Jumel. But, in 1825, when Mr. Jumel returned from France, another deed of appointment, under the previous trusts, was made, vesting the property in was perfectly lear, from all the facts and surroundings of the case, that the Rived Licention of the Jumels. Was the range of the pumel of the bunels was to proper on the

BUSINESS IN THE OTHER COURTS

The Palmer-Foley Quarrel Postponed.

The appeal in the Palmer-Foley suit, in the Superior Court, from the decision of Chief Justice Barbour, at Special Term, granting an order of injunc-tion against Foley, has gone over until March, as neither Justice Monell nor Freedman could take the piace of Judge Barbour in the General Term, owing to other engagements.

COURT OF GENERAL SESSIONS.

The Recorder on the Rosenzweig Case-He Thinks the Alleged King of the Abortionists Ought To Be Indieted for

Murder. Before Recorder Hackett. The Recorder took his scat upon the bench yes erday morning. Addressing Mr. Hummel (whe
